God Created all and is Supreme Ruler..

You, methodist or no other can change Gods Laws of Creations.

God also said His Creations must remain as created.

Judges 3rd chapt.

God said He was going to prove Israel many years after the old generations had passed on, they knew little of what had passed.

God told them, as he had warned the nation before them, Do not mix with the nations around, I will leave four nations to prove you obey my law.

What did they do did they obey?

No! They mixed in marriage with these nations. Read the chapter.

The decision of living, God has already made, you cannot and succeed with integration. All this turmoil of integration (page 2) created by Russia to the Negro race, with white communist marching and urging them.

Communists killed one about four or five years ago, they wanted to quiet, they would not let them, one escaped and went to Washington before congress so reported.

About that time a survey was carried on through congressmen and found the Communist had started the turmoil, of mixing

Gods Laws are made! We obey or we fall as other nations.

God will not let this mixing be. For the sins that are being committed.

God has already said destruction will *finally* be. When He weeds out the evil who will be among the throng?

Negros have got to learn to work and care for their own.

Read these and believe God Rules

Judges 2nd chapt, Duet. 4th 29-35

Read all Duet 6th chapt. Duet 7th chapt. 1st-15

What I have written here I believe. I know there is a (page 3)God, and when we seek Him, He, will help and be with us.

Gods Law rules, the question of integration be abolished.

As the man at convention said, well if we [?] to integration, then what will we do?

We have no decision to make, and i thank God for His right and power to Rule.

God has already made the decision and in the Great turmoil of our Nation, we have failed to study Gods word, we have stumbled and struggled with the question and did not search Gods words.

I hope that all schools will send all their negro students to their own schools. God will not help us only when we obey His Laws.

Sincerley,
